

VIVA

**"Visually Impaired youth with Vested
Autonomy – Social inclusion via social
entrepreneurship"**

V.I.V.A. is a consortium bringing together partner organizations from Romania, Bulgaria, Italy, Greece, Iceland and Belgium to grow and create as one European community. Working together, our consortium is collectively developing a training programme on social entrepreneurship for young visually impaired people.

UNIVERSITY OF
THESSALY

This project has been funded with support from the European Commission. This publication [communication] reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

The V.I.V.A. training programme will combine and adapt three concepts: development of leadership skills, development of intercultural skills and development of social entrepreneurial skills, aided by an excellent example of a innovative social entrepreneurial practice (bread in the dark and bakers without borders) and a team-building practice (drama for ensemble building among young people with v.i).

The target group of V.I.V.A. includes visually impaired young people aged between 18 and 30 who are about to:

- improve their self-knowledge and awareness;
- improve their confidence and motivation for personal growth;
- achieve better understanding of available resources;
- identify opportunities for professional development with accompanying practical skills.
